Acknowledgements

We would like to extend our hearty gratitude and thank our project guide, Dr. Geetha M who has constantly supported us at all times during our research and assisted us by stimulating suggestions when we had run into troubles during this project. This course and project wouldn't have been possible without her constant guidance and support. We also sincerely thank our university and our Course Advisor Dr. Gopakumar G for introducing, teaching and keeping us updated about the advancements in the field of AI and in the form of a very perfectly designed course where we learn the basics and advanced applications of the systems and models in real life. Their insights and expertise were crucial in helping me overcome challenges and achieve the goals of the project. I would also like to acknowledge the support and coordination of our project coordinator, Ajila S Babu, whose assistance and encouragement was invaluable in making this project a success.
